

# Your new business problem can be solved *... by breaking it into parts!*

## Leading truck parts supplier your new business solution

Established 20 years ago, this market leading truck part supplier is one of the premier operations of its kind in New Zealand.

It supplies used and aftermarket parts to an extensive national client base as well as exporting to destinations such as Australia, Fiji, Pakistan and Egypt. It is one of the few businesses in New Zealand selling aftermarket truck parts. As a result, it has attracted an impressive clientele of trucking companies, panel beaters, private truck owners, and many more, generating excellent turnover and income.

The office and warehouse (1,000 sq metres combined) enjoy a rural setting on a major highway on the North Island's west coast. With the highway at its doorstep, transporting goods isn't an issue and the regional setting ensures minimal overheads. A long lease on favourable terms is available for the new owner or the freehold title can be purchased in addition to the asking price.

With its existing market leading position, national and export clientele, the new owner has an enormous opportunity to grow the business further.

Currently operating Monday to Friday, the business is also your chance to take back your weekends and enjoy work/life balance.

In 2008, the nearby town of New Plymouth received the 'Top Town' award for all of New Zealand. As far as lifestyle goes, you'll find the local area has everything you could ask for, and more. From the legendary mountain to the pristine surf coast, the region's natural assets are, in a word, 'breathtaking'. Combined with plenty of social services, education and health facilities, cultural festivities and sporting events, it's a region to revitalise, rejuvenate and live life to the full.

ASKING PRICE: \$1 million + SAV + Freehold (optional)
