

Queensland Retail Nursery

- a green thumb's dream

Fancy yourself as a bit of a green thumb? Does the opportunity to run your own nursery in sun soaked Queensland sound like a dream come true?

Operating since 1986 this well established retail nursery located in a major regional town is your chance to secure the income and lifestyle you've always wanted.

The nursery stocks a large variety of plants and products specifically tailored to suit the local area. As well as a huge range of seedlings including bulk and plug trays for mass plantings, the business is also known as the largest supplier of potted roses in the region.

Spanning 1,300sqm, the nursery features two entrances with street frontage and is only a short walk from the town's largest shopping centre and nearby parks. As the closest nursery to the town's CBD the business enjoys a premium location, conveniently positioned for shoppers and local workers alike. During its time in operation the nursery has accumulated an impressive client base ranging from the local novice gardener to dedicated horticulturalist.

The town is located 130km west of Brisbane. Dubbed the 'Garden City', it's an ideal base for the nursery with its strong outdoor and gardening community helping it to almost two and a half decades of successful operation. With its solid income and strong foundations there are multiple opportunities for the future direction of the business such as branching into garden design and related services.

With 125,000+ residents, the town offers a well-developed infrastructure while retaining the laidback country atmosphere for which regional Queensland is renowned. It sits on the edge of the Great Dividing Range escarpment and features breathtaking views of Table Top Mountain and the Lockyer Valley region to the east. Every September the town comes alive with its annual Carnival of Flowers festival, attracting visitors from across Queensland.
