

Trencher and Earthmoving specialist - your South Australian goldmine

Established as one of the leading operations of its kind in the country, this business boasts a \$3.5-4 million turnover and a national and international client base of over 400 clients.

Commencing 28 years ago as a small husband and wife business, it has expanded to become a premier supplier of new and used trenchers and other earth moving equipment, including servicing, repairs and spare parts.

ITS RANGE OF PRODUCTS IS UNMATCHED AND THE BUSINESS IS THE EXCLUSIVE STATE OR NATIONAL DISTRIBUTOR FOR MULTIPLE TOP NAME BRANDS.

Product range, service and peerless reputation have been the key factors in developing a strong repeat client base sourced from multiple industries including plumbers, landscapers, telecommunication contractors, farmers and many more. Such is its success it also exports to clients in Asia.

The base of operations is located only 15 minutes from Adelaide's CBD. Comprehensive facilities include the impressive showroom, fully equipped machine shop where parts can be manufactured, ample storage, plus a separate wrecking area to process used equipment. A long lease is available on the store while the freehold title to the adjacent block used for storage and wrecking is included in the asking price.

With the business already boasting an impressive client base while still having further development potential, it's a genuine opportunity to secure an excellent income for you and your family and your new Australian lifestyle.

The central location of the business means the new owner will have a range of choices about where to live. Both the beaches and foothills are only a short drive while the city itself is a thriving hub that manages to retain a laidback coastal atmosphere. A visit to the nearby wineries should be at the top of your to-do list.
