

Plastic injection moulds and precision engineering

– approaching four decades of manufacturing success

Commencing operation in 1970, this South Australian investment opportunity has developed into one of the leading manufacturers of small to medium injection moulds in the state.

Having been in the industry for almost four decades, the business has the experience, expertise and equipment to deliver any plastic injection mould project and can accommodate the full production spectrum from design and manufacture through to maintenance and delivery.

Because of its superior reputation and workmanship, the business has attracted a diverse clientele, many who've been with the company for years. It includes manufacturers of pipes and irrigation products, a leading national bathroom brand, air conditioning and automotive part suppliers, and more.

Plant and equipment features cutting edge CNC Machinery as well as computer aided milling software packages. With the highly experienced and dedicated team in place, quality workmanship has been a pivotal factor in the business' success.

Situated on the southern outskirts of Adelaide, close to main arterials, the business' office and fully equipped workshop offer easy access to the surrounding city. The freehold title to the site is available in addition to the asking price.

South Australia's growing commercial and manufacturing base will be the perfect platform on which to continue building the business. Take advantage of its already outstanding reputation and industry contacts.

Adelaide is a truly unique destination, a vibrant lively city that still manages to retain a laidback coastal atmosphere. In the city itself you'll find all the shopping, dining and entertainment experiences you could ask for, while in the surrounding region there's wineries, beaches and National Parks, all awaiting your exploration. With a fabulous climate, education and transport facilities it's also an ideal family friendly city.
