The business specialises in the fabrication and installation of stone bench tops, vanity tops and related architectural items such as fireplaces and stairs. Combining quality materials, state of the art technology and superior workmanship, the business has managed to develop an excellent reputation within both the wider community and trade specific clients.

From homeowners and renovators looking to replace tired and worn kitchens, to cabinetmakers and builders seeking a classy touch for new homes, multi storey developments and commercial buildings, the business has attracted an extensive client base which brings the company repetitive business and continued growth on a weekly basis.

As well as the fabrication and sales of bench tops, the business also imports and distributes marble and granite slabs and tiles. An excellent source of additional income, the new owner has enormous potential to develop the distribution aspect of the business further.

The showroom and factory boast a central location in a premier industrial area not far from the city centre. In addition to the excellent facilities, the business comes with a comprehensive list of plant and equipment including brand new Italian CNC with all tooling, PLC controlled bridge saw, Proliner 8 electronic template device and all other necessary tools and fittings.
