

Stand out from the crowd

with in-demand Melbourne plaster business

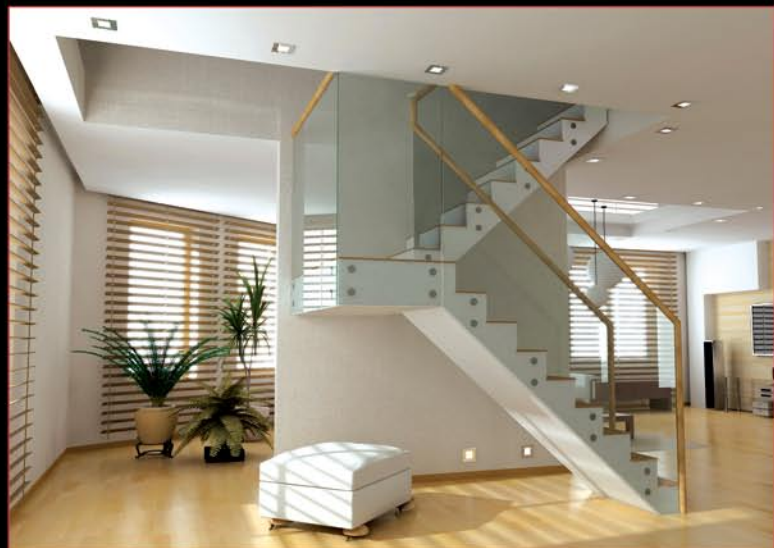

A focus on quality service has seen this Melbourne business go from a fledging plaster operation with high aspirations to an in-demand domestic and commercial specialist focused on high-margin projects.

Established ten years ago the business has built its reputation offering a comprehensive service where attention to detail is the norm and no job is too difficult. Through its uncompromising standards it has been able to distinguish itself from the standard 'tradie' operators and now services an extensive client base centering on the prestige domestic and light semi-commercial markets.

Because of its reputation for high quality work the business is in the enviable position of being able to focus on high margin projects where quality is the principle issue, not price.

It enjoys an excellent long-term relationship with many of the builders who service the Melbourne metropolitan area. Such is the strength of its reputation and outstanding track record, the vast majority of projects come directly to the business rather than the business having to actively chase down work. Currently its client base generates a \$3.2 million turnover and with its high margin focus, the new owner will enjoy a generous income.

The business operates from a factory in the southern suburbs of the city. Facilities include reception, offices and storage with the site being only moments from main arterials and excellent access to the rest of Melbourne.

WITH ITS SUPERIOR REPUTATION AND HIGHLY SUCCESSFULLY BUSINESS MODEL, FRANCHISING IS A REAL POSSIBILITY FOR THE FUTURE.

An added bonus is that you'll get to live in Melbourne, one of Australia's most popular cities. Whether its sport, world-class dining and entertainment venues, great shopping, art and culture, Melbourne has everything for everyone. Make sure you explore its beautiful coastline, nearby beaches and scenic Dandenong Ranges.
